FY 2005 – Analysis and Description of Activities Funded

Section 101

During 2005, Section 101 funds were used for three general purposes: training for local election officials and state election administrators, monitoring HAVA compliance, including accessible voting systems and polling places, and administration of the statewide voter registration system project.

During 2005, we provided 30 training sessions to 1,364 local election officials. Section 101 funds were also used to print the training materials. This training covered such topics as registering voters, counting ballots and preparing the polling place for election day.

Section 101 funds were also used to provide staff and materials to monitor HAVA compliance. The primary projects during 2005 were distributing polling place accessibility surveys and tracking responses and compliance and testing and approving accessible voting system components. The current status for accessible voting system is discussed in the discussion regarding section 102 (see below). Approximately 2,350 of Wisconsin's 2,820 polling places are now designated as accessible.

Finally, section 101 funds were used toward the administrative expenses, such as equipment leases, office space, and telephone costs, for the develop of a statewide voter registration system. When completed (by the September 12, 2006 Partisan Primary), this project will produce a computerized statewide voter registration list as required by section 303.

Section 102

As indicated by the financial status report, no Section 102 funds have been expended through the end of 2005. The Wisconsin State Elections Board has approved three voting systems (AccuPoll, the AutoMARK with ES&S products and Vote-PAD) for use as accessible voting equipment. Three additional vendors (Diebold, Sequoia and Populex) are also in the approval process. Punch card and lever municipalities are currently in the process of acquiring replacement voting systems for the first federal election in 2006 (the September 12, 2006 Partisan Primary). In addition to the replacement of lever machines and punch card voting systems, all municipalities are in the process of acquiring at least one accessible voting system component per polling place. Once again, these systems will be in place by the September 12, 2006 Partisan Primary.

We expect that the majority of the HAVA Section 102 funds will be expended prior to September 12, 2006 as reimbursement to municipalities for the acquisition of replacement or accessible voting systems or components.
